

Regarding the expansion of LPFM stations, I am requesting this not be done in Colorado as I am a regular listener to K-LOVE on 91.1FM. This station is essential to the community as it provides services no LPFM station does: spiritual enrichment, community resource information, family assistance, and unbiased news reporting. The public has a right to continue to support this station, as it is a full listener-supported enterprise; and to have a major say in its continued existence.
